

### **Rediweld launch, comprehensive new brochure**

Rediweld, a leading manufacturer in Traffic Calming products has been designing several new products over the last year to meet demands in the market.

These new products, together with the existing range are comprehensively featured in a new brochure produced by Rediweld. These products include Trafficop Speed Cushions, Surface Kerbing, Jislon Pole Cones, Speed Ramps, Parking Posts, Tactile Surfaces and more.

The Rediweld BusPad has been very well received by local authorities, as well as winning the Highways Award at the end of 2006. It has now been

installed at a variety of sites throughout the UK. This provides a cost effective raised boarding area which enables wheelchair and other users to have improved access to buses.

As well as the BusPad, Rediweld have also released for 2007 a Vehicle Stopper (70mm high) and a new speed ramp 'MiniSitecop' (50mm high).

For a copy of the new brochure please contact Sales on 01420 543007 or alternatively this can be downloaded from [www.rediweld.co.uk](http://www.rediweld.co.uk).
